DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 21, 22, and 24-27 drawn to ACD with different communication types, classified in class 379, subclass 265.02.
 - II. Claims 28-38, drawn to ACD for detecting failure of a server computer, classified in class 379, subclass 266.04.
 - III. Claims 44-50, drawn to an agent interface for an agent in a call center, classified in class 345, subclass 734.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II, and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as a browser database that allows a customer to view web pages. Invention II has separate utility such as a failure handler for placing an agent and customer computers in direct communication upon failure of the server computer. Invention III has separate utility such as an agent interface for an agent in a call center. See MPEP § 806.05(d).

Art Unit: 2642

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, nor group III, for example, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Benny Q. Tieu whose telephone number is 571-272-7490. The examiner can normally be reached on Monday-Friday: 6:30AM - 5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ahmad Matar can be reached on 571-272-7488. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
